

## OTTEN ARMOR PLATE

Navy Department Investigating Astounding Charges Against the Carnegie Company.

LIBERATE FRAUD ALLEGED.

Advantages Made by Six Workmen Said to Cover 10,000 Plates, of Which 700 Are Alleged to Be Defective.

HERBERT WILL CONSIDER IT TO-DAY.

Finance Chief Sampson Belitts These Charges, but Lets Another Alleged Scandal Out of the Bag—Have the Carnegies Tampered with the Virtue of Armor—Piercing Shells!

Secretary Herbert, of the Navy Department at Washington, will receive to-day, by appointment, the representatives of six men who make charges of astounding nature against the Carnegie Steel Company in connection with the manufacture by that company of armor plate for the new vessels of the navy.

These charges, if substantiated, will show that the supposed-to-be invulnerable sides of our new cruisers and battleships are in reality weak enough, in fact almost to be beaten to pieces by sledges; that the plates are, in many cases, fastened on with bolts of less than the supposed and requisite strength, and that this state of affairs has been brought about by crime and not by accident.

These charges are based upon affidavits now in the vaults of a trust company in Pittsburgh, made by six men, one of whom is John McLaucke, an ex-press of the town of Homestead, for long time a workman in the Carnegie mills, and whose share in the troubles arising from the great strike there are his national prominence. Of the other five men all have been and some are at present workmen in the mills, chiefly in the finishing department, where armor plates are turned from the rough state into the finished product, and where the frauds, if any there have been, were committed.

They have all been, it is said, workmen of the highest grade. The facts alleged in their affidavits are obtained, they say, from private records duplicating the reports of their work which they made to their superiors. Their original purpose in keeping these duplicates was to protect themselves against possibility for defects in the work which might be developed at the final trial of the plates, it being the custom

different set of men. They include, of course, the ten months covered by the former charges, and confirm the disclosures made by them.

The Navy Department has been cognizant of these charges for some time, and has made a preliminary investigation by sending Lieut. Holcomb to Pittsburgh to meet the representative of the men.

The charges involve gross carelessness, and possibly worse, on the part of the Government inspectors at the mills, and Lieut. Winder, chief inspector at the armor-plate mill spent yesterday at Washington in conference upon the matter with his superior, Chief of Ordnance Sampson.

The charges involve gross carelessness, and possibly worse, on the part of the Government inspectors at the mills, and Lieut. Winder, chief inspector at the armor-plate mill spent yesterday at Washington in conference upon the matter with his superior, Chief of Ordnance Sampson.

The charges involve gross carelessness, and possibly worse, on the part of the Government inspectors at the mills, and Lieut. Winder, chief inspector at the armor-plate mill spent yesterday at Washington in conference upon the matter with his superior, Chief of Ordnance Sampson.

The charges involve gross carelessness, and possibly worse, on the part of the Government inspectors at the mills, and Lieut. Winder, chief inspector at the armor-plate mill spent yesterday at Washington in conference upon the matter with his superior, Chief of Ordnance Sampson.

JOHN MCLAUCKE.

The affidavits purport to show: That the recently exposed defects in armor plates for the Carnegie Company has paid the Government \$140,000, instead of being the result of accidents, blunders or overzeal on the part of the workmen, were a part of a deliberate scheme for swindling the Government.

That instead of continuing for only ten months, they began when the manufacturing of armor began at the Carnegie works, and had not ended two weeks ago.

That they were carried out by the orders, under the supervision and, in some cases, with the personal assistance of superintendents and other superior officers.

That not only were test plates rejected and doctored in various ways after selection, but, where plates failed, test specimens cut from other plates were palmed off on the inspectors, while plates absolutely rejected were laid aside and subsequently substituted for other plates and foisted upon the Government.

That plates sure to be rejected were fraudulently stamped as accepted, the inspectors' stamps being surreptitiously obtained for that purpose.

That the bolts for fastening the armor to the ships received less than the required and necessary treatment and are thereby weaker than they should be and liable to be broken by a blow that even a poor plate might stand.

That the records are said to cover 10,000 plates and to show that of these about seven hundred, including many of the most important heavy plates for the battle-ships are unfit for such use and liable to be shattered by a comparatively light blow.

That the records are said to cover 10,000 plates and to show that of these about seven hundred, including many of the most important heavy plates for the battle-ships are unfit for such use and liable to be shattered by a comparatively light blow.

That the records are said to cover 10,000 plates and to show that of these about seven hundred, including many of the most important heavy plates for the battle-ships are unfit for such use and liable to be shattered by a comparatively light blow.

## MUST PUNISH BROCKWAY.

F. R. Couderc Says the Paddler Should Not Only Lose His Place, but Pay a Further Penalty.

NO QUESTION OF HIS UNFITNESS.

Stern Words from William D. H. Washington and Speaker Malby on the Situation.

Frederic R. Couderc said yesterday: "Brockway's usefulness is at an end, and he should be removed without delay. I have read the testimony given before the investigating committee, and it made my blood boil. If he is guilty of only one-fifth of the charges that have been preferred against him he is unfit to hold the position, and I should say that his guilt had been proven beyond a doubt. According to the report of the investigating committee 200 witnesses were examined. Eighty out of every 100 gave testimony adverse to him, and making all due allowance for false statements on the part of the witnesses, there can be no question that he is in the wrong place."

"I want to go still further and say that he should not only lose his position, but he should be punished. I am one of the members of the Society for the Prevention of Cruelty to Animals. If I found a man on the street treating an animal half as cruelly as Brockway is said to have treated the horses, I should have him arrested and go into court and prosecute him."

"I can repeat myself too strongly in regard to this matter. The mere removal of Brockway is not enough. When a man occupies a position of trust and is found guilty of the crimes charged against him the loss of office is not sufficient punishment. The petition to the Board of Managers of the Elmira Reformatory for a new investigation is about the only thing that will make a difference. The Legislature should be appealed to, and the Legislature should be asked to remove him from office."

William D. H. Washington, President of the "6-10-9" Club, said: "All I know of Brockway is that he is a man who has been in the position of trust for a long time, and who has been found guilty of the crimes charged against him. I am not a member of the Society for the Prevention of Cruelty to Animals, but I am a member of the Society for the Prevention of Cruelty to Man. If I found a man on the street treating a man half as cruelly as Brockway is said to have treated the horses, I should have him arrested and go into court and prosecute him."

"I want to go still further and say that he should not only lose his position, but he should be punished. I am one of the members of the Society for the Prevention of Cruelty to Animals. ## A THUNDERBOLT BROKE HIS FALL.

As Little Jacob Dropped from a High Window Eisenberg Looked Up and Made a Great Catch.

IT SAVED THE YOUNGESTER'S LIFE.

The Boy Has a Fracture from His Fifty-Foot Tumble and His Savior Has a Stiff Neck.

Louis Green and his wife live in a couple of rooms on the top floor of a five-story tenement-house, at No. 19 Allen street. Green is a glazier and a peddler, but he has been a member of the great army of the unemployed for several months, and the little family has had a very hard time of it. Along with his cramped quarters, and poverty the Greens have managed to rear two of as bright and handsome little children as can be found on the east side.

The older of these children is Jacob. He has just passed his fourth year. He has dark brown hair, blue eyes and a chubby face. The little fellow can speak both English and German with much fluency. Jacob was playing about the room yesterday morning while his mother was washing the breakfast dishes. She had raised the window opening upon the street to let in the warm sunshine, and he had been looking out at the world. The little fellow came up to the window sill, and he heard a little cry from him and saw him disappear through the opening.

The boy had been caught on the fire-escape. The boy had, however, fallen through the opening in the fire-escape, and he was hanging by his arms from the top of the fire-escape. The boy had been caught on the fire-escape, and he was hanging by his arms from the top of the fire-escape.

The boy had been caught on the fire-escape, and he was hanging by his arms from the top of the fire-escape. The boy had been caught on the fire-escape, and he was hanging by his arms from the top of the fire-escape.

## THEY'D SAVE FIFTH AVENUE.

Many Whose Business Would Be Affected by a Street-Car Line Tell Why They Oppose the Measure.

THEN THERE'S THE SENTIMENT OF IT.

Crowds Throng the Great Street, as on All Sundays, and Are a Protest Against Its Desecration.

Secretary Milliken, of the Fifth Avenue Protective Association, said yesterday: "The proposed railroad on that thoroughfare, which asks to be allowed to use the street as far as Twenty-third street, means eventually to get Fifth avenue up as far as Forty-second street at least. I am confident that the desire of the railroad company will not be gratified."

"I am highly pleased," said he, "at the enthusiastic manner in which the patriotic citizens of New York are protesting against the desecration and destruction of Fifth avenue. When an attempt was made to get a railroad on the avenue in 1885, I had no trouble in getting the signatures of over four thousand people to a protest against it. If the bill at Albany ever reaches a vote I do not think it will pass. Legislators would hardly trample upon the sentiment of the people and the sentiment of the patriotic citizens of New York are protesting against the desecration and destruction of Fifth avenue. When an attempt was made to get a railroad on the avenue in 1885, I had no trouble in getting the signatures of over four thousand people to a protest against it. When an attempt was made to get a railroad on the avenue in 1885, I had no trouble in getting the signatures of over four thousand people to a protest against it. If the bill at Albany ever reaches a vote I do not think it will pass. Legislators would hardly trample upon the sentiment of the people and the sentiment of the patriotic citizens of New York are protesting against the desecration and destruction of Fifth avenue. When an attempt was made to get a railroad on the avenue in 1885, I had no trouble in getting the signatures of over four thousand people to a protest against it.
